Foaming Cleaner and Degreaser

“Primarily designed for areas controlled and inspected by health and safety organizations (eg. meat, poultry and fish processing plant). However, because of exceptional cleaning capabilities, it can also be used in many other applications.”

FEATURES AND BENEFITS

APE-free: More environmentally compatible.
Alkaline pH: Quickly cuts through and emulsifies grease and oil.
Buffered pH: Continuous high performance cleaning.
Hard water stable: No loss of performance in hard water.
Easy to rinse: Fast rinsing in hot or cold water, which speeds up the overall cleaning process.
High foam formula: Clings to vertical surfaces when using pressure washer application, allowing for longer contact time.

WHERE TO USE

Efficiently attacks and penetrates deposits of blood, fats, marrow and protein soils and removes them from meat, poultry and fish processing equipment, tables and cutting boards, as well as from floors and walls.

HOW TO USE

Dilute according to the dilution rates mentioned below. Apply using a pressure washer or a portable foam dispensing system. Let sit, scrub and rinse with potable water. Do not allow cleaner to dry before rinsing, since streaking and reduced cleaning efficiency will result.

Recommended dilution rates:

Normal cleaning	1:80
Heavy duty cleaning	1:10
Portable foaming dispensing system	use undiluted
Pressure washer	1:80

Note: Adjust rates to suit your cleaning needs.
