Maximum

Stripper and degreaser

“Maximum’s effective penetrating power strips water emulsion floor sealers and finishes, even those heavily built-up or burnished over long periods.”

FEATURES AND BENEFITS

Powerful: Works quickly with minimum effort.

Versatile: May be used with mop, automatic scrubber or floor machine; removes all finishes including over-burnished ones.

Pleasant to Use: No strong fumes; non-ammoniated; making it preferable to strong smelling strippers.

Excellent Degreaser: Can be used to remove tar, soils, greasy finger marks, ink and carbon smudges and as a spot cleaner for large area cleaning.

WHERE TO USE

Can be used on all resilient and non-resilient floors. Excellent for high traffic areas as labour is drastically reduced and down-time is kept to a minimum. Floors can be stripped, re-finished and ready for traffic in record time. Use as a degreaser for all hard surfaces.

HOW TO USE

Stripping: Dilute in room temperature water according to the dilution rates mentioned below. Apply using an auto-scrubber, floor machine or mop to a manageable area and let it work for 3 to 5 minutes. Do not allow the solution to dry on the floor. Agitate the solution with the applicator, then pick up with a wet-vac or mop and rinse well.

Degreasing: Dilute and spray on, wipe on or mop on. Rinse with potable water.

Recommended dilution rates:

Normal stripping	1:4
Auto-scrubber/Floor machine	1:30
Degreasing	1:4
Metal surfaces	1:50

Note: Adjust rates to suit your cleaning needs.
