Odour control where you need it

Adheres to any surface to provide powerful odour control.

You don't have to reach into the bowl

Unlike rimsticks the Air Flex sticks to the outside of the toilet and is activated by ambient air flow.

The most versatile air freshener

Perfect for tricky spots or any area that needs a shot of freshness.

Use with the holder provided

The holder stays in place with two sided tape while the Air Flex is replaced each month. A fresh smelling area without bulky air freshener. Although ideal in any space, the Air Flex works well at fighting odours in restrooms, offices, locker rooms, food service areas, retail spaces, lobbies, and garbage receptacle areas.
