How to restore a floor using a floor maintainer

Restoring a floor finish can be done using different methods. For quick maintenance, apply Cross-Link using a mop will bring quick and easy results. Repairing a damaged floor finish can be done using the spray buffing method where you spray a small amount of Cross-Link onto the floor. Pass over this area 3 or 4 times with the Integra floor machine and a red pad and voilà, your floor will look like new!
