

Eco Easy Fill

A safe way to dilute your chemicals on the go

About this product

The Eco Easy Fill is a portable, closed-loop dilution system that can be used wherever a water source is available – no mixing station required. An economical solution to wall-mounted dispensing systems, it can be installed in seconds and is easy to operate. The water flows through the unit and venturi pressure pulls the correct amount of concentrate as determined by the built-in metering device, mixing it with water for easy dispensing. The accuracy of the dilution is precise and foolproof. The system eliminates the risk of spills, preventing chemical loss and promoting a cost-effective use of the chemical.

- Easy as 1-2-3: insert the straw into the container, screw the Eco Easy Fill and connect to a water source
- Safe chemical handling – eliminates leaks and chemical exposure
- Install in seconds – no mounting needed
- Environmentally conscious: designed to prevent accidental discharge of chemicals
- Eliminates spills that could be dangerous to the user
- Withstands harsh chemicals
- Control the water right at the unit
- Durable construction assures a long-term performance
- Features a bucket clip and easy locking button
- Colour-coded for easy identification
- Ergonomically designed for safety and productivity with one-handed operation
- Requires minimal training, for faster and easy adoption

Available Dilutions

Colour	Dilution	Code	Compatibility
○	1:10	51070	Azure, +
●	1:20	51072	Oxy D.S.T., Bio-Bac II, Restore, Time-Out Plus, Oxy-Q, +
●	1:40	51091	Oxy D.S.T., Bio-Bac II, Emerald, +
●	1:80	51092	Quat Plus, Vanguard, Disappear, Oxy-Q, +
●	1:120	51093	Excelsior, Eco-Expert, Emerald, +
●	1:256	51069	M5, Vanguard 256, Excelsior, Oxy-Q,

Closed Loop System

Eliminates spills and chemical exposure that could be dangerous to the user.
