

Air Max

30 days of maximum odour control

About this product

A passive air system that offers consistent and powerful odour control. The Air Max is designed for a month long performance, outperforming gels, wicks and aerosols. It fits in any competitor's holders, even fan-powered dispensers. Use it in restrooms, boardrooms, lobbies, trash rooms, or anywhere odours are an issue.

- 30 full days of odour control
- Requires only natural air flow to work effectively
- Ready to use, no batteries or fan are required
- Cannot break, capsize or spill
- VOC compliant
- 100% recyclable
- Consistent odour control
- Ideal for large spaces that need odour control

Cotton Blossom	
Cucumber Melon	

Fits in your current dispenser

No need to purchase a new dispenser. The Air Max fits perfectly in any dispenser, even fan-powered units. It is ready-to-use and outlasts gels, wicks, and aerosols while driving down odour control costs

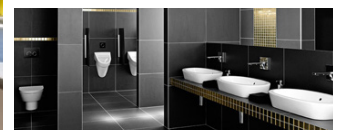

Optional dispenser

Its sleek modern design can complement your decor. No need to hide it in a dispenser.

Maximum Air Coverage

The Air Max is capable of freshening your largest areas without needing batteries or fans. Although ideal in many locations, the Air Max works well at fighting odours in restrooms, offices, locker rooms, food service areas, retail spaces, lobbies, and garbage receptacle areas.
