

2L Refillable Lotion Soap Dispenser

High-Capacity, Low-Maintenance Solution

About this product

The 2L Refillable Lotion Soap Dispenser is designed for facilities that demand performance and efficiency. With double the capacity of standard units, it reduces refill frequency and maximizes uptime, making it ideal for high-traffic commercial and institutional washrooms. Built for durability and convenience, the dispenser features a replaceable internal pump and bottle, along with a sturdy ABS housing that withstands frequent use. Its sleek, wall-mounted design includes a front-view refill window for quick level checks, ensuring both functionality and a professional appearance.

Compatible with bulk lotion, soap, and hand & body shampoo, this system offers a cost-effective and sustainable alternative to cartridge-based dispensers.

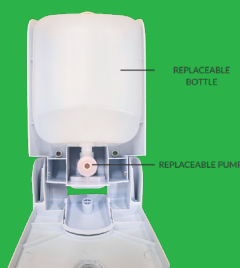

- **2L Large Capacity:** Reduces refill frequency and supports extended use in high-volume environments.
- **Refillable & Cost-Efficient:** Works with bulk liquid soaps, and hand & body shampoo, minimizing waste and supply costs.
- **Replaceable Internal Components:** Includes a refillable bottle and pump that can be replaced as needed for long-term use.
- **Transparent Refill Window:** Allows quick monitoring of product levels without opening the unit.
- **Sleek, Wall-Mounted Design:** Compact and modern, suitable for professional washroom settings.
- **Durable ABS Housing:** Impact-resistant body holds up to daily use and institutional cleaning.

Suitable for

Educational institutions
Healthcare and long-term care facilities
Office buildings and public restrooms
Foodservice and retail environments
Airports, transit hubs, and industrial sites
