

Complex Orange

Industrial Degreaser

About this product

Complex Orange is a heavy-duty, water-based degreaser designed to break down petroleum-based and plant/animal-derived grease and oils—even in hard water conditions. Its powerful formula penetrates and lifts stubborn grime from metal, concrete, tile, rubber, and other durable surfaces. PFAS-free, phosphate-free, and solvent-free, Complex Orange combines biodegradable surfactants with industrial-grade performance to deliver deep-cleaning results while leaving surfaces clean and residue-free.

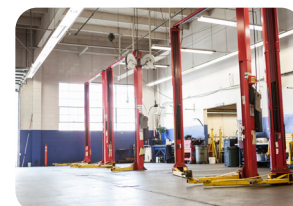

- **Powerful Cleaning Action:** Penetrates and dissolves heavy petroleum, plant, and animal-based grease and grime.
- **Versatile Use:** Ideal for metal, concrete, tile, rubber, and other durable surfaces.
- **Hard Water Performance:** Maintains cleaning efficiency even in challenging water conditions.
- **Eco-Conscious Formulation:** PFAS-free, phosphate-free, solvent-free, and biodegradable surfactants.
- **Industrial-Strength Results:** Perfect for automotive repair shops, service bays, and manufacturing facilities.

Dilution rates:

Light Duty Cleaning	1:80
Medium Duty Cleaning	1:30
Heavy Duty Cleaning	1:15

**INDUSTRIAL
STRENGTH!**

Suitable for

Automotive repair shops, service bays,
and manufacturing facilities
