

Time-Out Plus

Quick and easy floor stripping

About this product

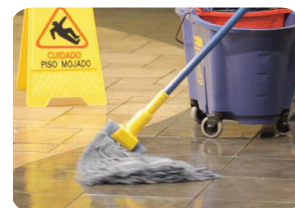

Time-Out Plus' innovative formula is powerful yet easy on the planet. It penetrates and cuts through layers of floor finish and sealers quickly and efficiently, with no fumes or odours. Can safely be used on all types of flooring using a mop, auto-scrubber or floor machine. An excellent choice for high traffic areas as its fast acting formula reduces labour drastically, keeping the downtime to a minimum. Floors can be stripped, re-finished and ready for traffic in record time.

- Highly effective without harsh chemicals
- Fast acting – requires minimum effort
- Safe for cleaning equipment
- Safe for all types of flooring
- Caustic-free
- Ammonia-free
- Biodegradable
- Reduced environmental impact
- ECOLOGO Certified (UL 2777)
- No strong fumes
- No odours

Dilution rates:

Auto-scrubber	1:48
Floor Machine	1:48
ECOLOGO (UL 2777)	1:20
Normal Stripping	1:20
Heavy Duty Stripping	1:15

Proper Finish Application

When stripping finish from a floor, a high pH solution is used. This process leaves a high pH (alkaline) residue on the floor and leaves the floor with a high pH. To ensure a proper finish application, the floor must be neutralized using an acid based neutralizer to bring the pH closer to neutral (7). Ideally, the pH of the floor should match the pH of the sealer or finish to be applied.
