

Vanguard 256

General Purpose Disinfectant Cleaner

About this product

A concentrated version of Vanguard specifically formulated for the healthcare industry. Cleans, disinfects and deodorizes in one labour-saving step. Cleans by removing tough soils such as dirt, grime, mold, mildew, blood, urine, and fecal matter. This non-abrasive neutral quat-based cleaner and disinfectant is highly efficient in destroying a broad range of bacteria, viruses, fungi and other microorganisms such as *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, *Trichophyton mentagrophyte*, Influenza A/Hong Kong and *Vaccinia* from non-porous surfaces. Intended for use in veterinary clinics, laboratories, hospitals, dental clinics, nursing homes, food processing facilities and federally inspected meat, poultry and fish establishments, Vanguard 256 kills odour-causing bacteria, leaving surfaces smelling clean and fresh. Great for mold and mildew cleanup!

DIN: 00213095

- Preserves the appearance of floor finish

- Safe for food contact surfaces

Dilution rates:

Normal Cleaning	1:256 - 1:500
Disinfection, Mold & Mildew	1:256
Heavy Duty Cleaning	1:40 - 1:256

Disinfection Tip

Cleaning and disinfecting helps to prevent the spread of germs that may cause illness. To ensure proper disinfection, remember a very important fact:

C (cleaning) comes before D (disinfection).

Cleaning is an important first step because it removes dirt, organic matter and most germs from surfaces, but does not destroy some harmful germs that may remain. All surfaces must be thoroughly cleaned before disinfection to ensure there are no hidden germs.
