

Box Style Carpet Extractor

Innovative

The Power Clean 1200 XT is one of our most dependable box style carpet extractors. Supplying high suction makes this machine a great buy. Innovative air intakes use the vacuum's own cooling fan to pull cool outside air over the vacuum motors. This innovation reduces motor temperatures by up to 18 percent. The heated air pressurizes the motor cavity forcing the hot air to be expelled through the six slotted vents.

Well Designed

Fully portable, constructed of lightweight rotational molded polyethylene for maximum strength and maneuvers on large rear wheels and 3 inch double ball bearing casters. The semi-pneumatic wheels provide a smooth, quiet operation. The molded-in air deflector reduces turbulence within the recovery tank and the easy twist access port provides quick removal and won't freeze in place.
